ILDS14 Conference 2015

1. New projects:

Centralized ILL (loans and scans) by University of Alberta for all 7 NEOS consortium members thereby freeing up their ILL staff, also for disadvantaged library in Vietnam. Used NCIP to upload patron details to UAB's patron file.

Digital Article Service at the State and University Library, Aarhus, Denmark (SULA) re-supplies articles already paid for to public libraries for one euro. They paid for publishers' agreement and created databases of articles received for this.

2. General:

ALA RUSA International Interlibrary Loan Committee

http://www.ala.org/rusa/sections/stars/section/internationill/intill

The Rethinking Resource Sharing Initiative STAR Checklist - to review ILL policies and processes http://rethinkingresourcesharing.org/star-checklist-2/

IDS (Information Delivery Services) ALIAS - Article License Information Availability Service http://www.idsproject.org/tools/alias.aspx

IDS Workflow Toolkit http://toolkit.idsproject.org/

CIC - Committee on Institutional Cooperation - Shared Print Repository https://www.cic.net/projects/library/shared-print-repository/introduction

LVIS - Libraries Very Interested in Sharing - reciprocal agreements for free ILL http://www.cyberdriveillinois.com/departments/library/libraries/OCLC/lvis.html

3. Open Source software

Ifreetools creator - for creating a database from a variety of sources, could use for checking ILL stats from ILL module, chat, webmaster, email, sms etc... http://creator.ifreetools.com/

Blacklight - A multi-institutional open-source collaboration building a better discovery platform framework http://projectblacklight.org/#examples

CORAL - an Electronic Resources Management System consisting of interoperable modules designed around the core components of managing electronic resources (such as licenses, and is used by Hebrew U.) http://coral-erm.org/

Dspace - for creating institutional repositories http://www.dspace.org/introducing

4. Open Access:

CHORUS - http://www.chorusaccess.org/

ARL SHARE - http://www.arl.org/focus-areas/shared-access-research-ecosystem-share#.VhF2Nuyqqko

Green/Gold Open Access
http://library.queensu.ca/scholcomm/open-access/make-pubs-open

5. Commercial software:

Qualtrics - survey software http://www.qualtrics.com/ used by International Interlibrary Loan Committee for 2015 survey
https://uwlibraries.qualtrics.com/CP/File.php?F=F_4YMredR9EiFHcDH

NCIP - addresses interoperability between various circulation and ILL applications http://www.ncip.info/about-ncip.html

Encore - discovery tool https://www.iii.com/products/sierra/encore

AirPAC - catalog for mobile library-users, "AirPAC for Smartphones" brings the library catalog to your users whether they are riding a bus, waiting for a class to start, or browsing a bookstore or library stacks.
http://cable.tmcnet.com/news/2010/02/11/4617158.htm

6. Commercial DD:

RapidILL http://rapidill.org/

7. ILL management software/tools:

ALMA - no NCIP, no de-dup of barcodes,

ILLiad - ILL automation https://www.oclc.org/illiad.en.html

Relais: Sharing Made Simple - http://www.relais-intl.com/

QULTO software - http://qulto.eu/

8. Other:

Occam's Reader - http://occamsreader.org/
Only has agreement with Springer (may also get agreement with Project Muse) that has ebook module anyway, that is much better than Occam's. Book reader is poor, cannot hi-light, use dictionary, download. or print. Costs $500, only in USA.

SAAS - Software As A Service e.g. OCLC and Ebrary see ALA document https://alair.ala.org/bitstream/handle/11213/258/Software%20as%20a%20Service.pdf?sequence=110&isAllowed=y

ResearchGate - ILL departmental web pages should teach patrons about RG - http://tamucc.libguides.com/ill/findarticles

Twitter - #ihazpdf https://twitter.com/hashtag/ihazpdf - article sharing among patrons

OCLC trademark "What is known must be shared" https://www.oclc.org/en-US/share/home.html

Arabic Collections Online - digitization project of Arabic materials http://dlib.nyu.edu/aco/
